IMPORTANT WIFI NOTE

If the game is connected to WiFi, you must let it finish uploading on that WiFi connection. If you are connected to the building WiFi and leave, the upload will get stuck, and we will need to get Hudl support online to help pull the recording from the iPad and upload to our Hudl account. Please always keep WiFi connection until recording is completely uploaded. Another option in the beginning would be to connect to wifi so you are able to login, set up to record, and then disconnect before recording, so the game does not start uploading through the gym network.

TRACK UPLOAD You can track the upload in the bottom left of Hudl by clicking on the green sync area.
